

p = 0.3

p = 0.3

p = 0.4

 $0.3 \cdot 15 + 0.3 \cdot 10 + 0.4 \cdot 3 = 8.7$

$$p = \frac{0.3}{0.7} = 0.43$$

$$p = \frac{0.4}{0.7} = 0.57$$

$$0.43 \cdot 10 + 0.57 \cdot 3 = 6$$
